

Embedding Sustainability: One Mind at a Time

An Exclusive Breakfast with

Interface **FLOR**

InterfaceFLOR is the world's largest manufacturer of modular flooring. They are also a recognised pioneer and leader in the sustainability field. Since starting their journey in 1995, they have reduced their waste and water usage by unit of production by 80% and GHG emissions by 44%.

Our guest speaker will be Ramon Arratia, InterfaceFLOR Europe's Sustainability Director. He will talk about how they have embedded sustainability into their business and culture, the benefits that delivered and the eight things they have learned.

8am to 10am Thursday 7 April 2011
InterfaceFLOR's Showroom, near The Barbican
1 Northburgh Street, London EC1V 0AL
